

# Swimming Pool Lights

## WET NICHE

### WN - 300

- For use in concrete swimming pools
- 300W - 12V G.E. bulb.
- 2.5M cable or different length on request.
- Full CE approval.

### WN - 301

- Same as WN - 300 with plastic chrome plated face.

### WN - 35

- Safe extra low voltage. 12 volts, 35 watts
- Suitable for concrete, fibreglass and vinyl lined pools or spas
- Weatherproof transformer (IP23) with plugtop. Approval No V95240
- Ceramic glass front
- 10 metres of cable on the light
- Interchangeable coloured lenses available in blue, red, green, amber, magenta and clear
- Water flows through the rim to help eliminate stagnant water behind the light
- Different colours available

### WN - 100

- 20 metres of heavy duty 4mm<sup>2</sup> cable to reduce voltage drop and ensure maximum light output
- Interchangeable coloured lenses available in blue, green, red, magenta and clear
- Outside rims available in white, black or ivory to match your pool or spa interior
- Compact 155mm diameter
- Recessed design projecting just 18mm into pool interior
- High quality 100 watt quartz halogen globe with ceramic connector
- Slotted rim allows water to flow around light, eliminating stagnant water and aiding cooling.

### Mounting Kit:

- Solid four point mounting to ensure niche doesn't move during concrete spray.
- Two-part mounting to ensure light always sits flush with pool wall, even if niche is out of alignment.
- Bayonet tabs to lock light into position, for ease of service.

## SURFACE MOUNTED

### SM - 100

### Mounting Kit:

- Large lens seal
- Plastic backing plate
- Interchangeable coloured in blue, green, red, clear or amber
- Rim colours available in white, brown, black, blue or ivory
- Water flows through the rim to help eliminate stagnant water behind the light
- Simple one screw mounting to ensure light always sits flush with pool wall, even if niche is out of alignment
- Bayonet tabs to lock light into position, for ease of service
- 12v 100 watt
- Simple liner pool connection

### SM - 150

The SM150 series underwater light provides brilliant, double contact quartz-halogen lighting for all concrete pools and spas. This revolutionary, patented design uses a mounting hub and bracket instead of a niche. This light eliminates the need for pre-punched light panels, costly makeup panels and extra braces. It reduces installation costs and leak potential for concrete and vinyl pools.

- 20 metres only a 1 inch hole in wall panel
- Only the finest materials used
- No costly makeup panels
- no extra braces
- Wall hugging fit
- Easy to service
- easy to install
- 12V 150W
- Extra cord for special storage
- High temperature, corrosive resistant components

# Fountain Lights

Waterjet's new Underwater Plastic Fountain Light is ideal for illuminating fountains and ponds. Made in white or black thermoplastic glass-fibre reinforced polyester, suitable for high heat emission. Base with metal support to allow the light to stand upright. Supplied with 2 cable outlets for series connection and 2.5m of cable. Special lengths of cable on request. Colour lenses available in red, green, yellow and orange.
